Tooltips, Popovers and Modals

- Revealing content upon interacting with an element on the web page
- Information displayed as an overlay
- Order of flexibility:
Tooltip ➔ Popover ➔ Modal

Modal

- More detailed information can be presented than tooltips and popovers
- Modal contains header, body and footer
- Can use the Bootstrap grid in the body to organize content

Exercise: Tooltips and Modals

- Add tooltips to a web page
- Add modals that are revealed when the user clicks on a link or a button in the web page.
