Alerting Users

Jogesh K. Muppala

Alerting Users

- Simple updates:
  - Badges
- Alert / Error / Warning messages
- Progress Bars

Badges

```
<h2 class="media-heading">
    Uthappizza
    <span class="badge badge-danger">HOT</span>
    <span class="badge badge-pill badge-secondary">$4.99</span>
</h2>
```

Uthappizza **HOT** **$4.99**

A unique combination of Indian Uthappam (pancake) and Italian pizza, topped with Cerignola olives, ripe vine cherry tomatoes, Vidalia onion, Guntur chillies and Buffalo Paneer.

Alerts

Warning:: Please **call** us to reserve for more than six guests.

```
<div class="alert alert-warning alert-dismissible" role="alert">
    <button type="button" class="close" data-dismiss="alert">
        <span>&times;</span>
    </button>
    <strong>Warning:</strong>: Please
    <a href="tel:+85212345678" class="alert-link">
    call</a> us to reserve for more than six guests.
</div>
```

Alerts

<div class="alert alert-*"> </div>

– Alerts in different colors

– Can include links in alert

– Use alert-dismissible and X button to dismiss alert

• Needs Javascript plugin

Progress Bars

```
<div class="progress">
    <div class="progress-bar progress-bar-striped bg-danger"
        role="progressbar" style="width: 80%">
    80%
    </div>
</div>
```

Progress Bars

- <div> with *progress* class
  - inner <div> with *progress-bar* class
  - style= "width:xx %" controls the size
  - *progress-bar-**
    - colors: *primary*, danger, …
    - striped: *striped* appearance, also use *animated* for animation
  - Several can be stacked: include all inner divs in a single outer *progress* div

Exercise: Alerting Users

- Add badges to your web page using the Bootstrap badge class
